Author Info.

Norman K. Ma
Ph.D. Computer Science, Texas A&M University, College Station, TX
M.B.A., Southern Methodist University, Dallas, TX
M.S. Computer Science, University of Tennessee, Knoxville, TN
B.S. Computer Science, University of Illinois, Urbana-Champaign, IL

Timothy R. Aiken
M.S. Boston University, Boston, MA
B.S. United States Air Force Academy, Colorado Springs, CO
Common Agility Space (CAS)
Common Agility Space (CAS)
C2 Concept and Common Construct

- Situation Awareness identifies states in a CAS model
- Effects-based Operation selects states in the CAS as targeted effects
- Agility is a characteristic of the paths amongst the CAS states
Problem Space Characterization
Approaches to Building Model
Power Curve Fitting

![Graph showing the relationship between problem space size and variables. The graph demonstrates an exponential growth pattern.]
Exponents Distribution
Approach Induction Range
Physical, Information, Cognitive (Logical and Emotion), and Social
