NATO CODE OF BEST PRACTICE FOR C2 ASSESSMENT and the short GUIDE TO BEST PRACTICE FOR C2 ASSESSMENT
Presented at 2000 CCRTS, Monterey, USA.

Thank you for your interest in the NATO Code Of Best Practice (COBP) for C2 Assessment (AC/243(panel7)TR/8 1998 Edition) and the short Guide to Best Practice (GTBP) for C2 Assessment (DERA/CDA/SEA/AIR/WP000061). The GTBP is a bullet-point summary of the COBP with additions developed by the UK and proposed as an additional resource for analysts and reviewers. If you are a potential user of these documents then would invite you to contribute to a review of them being carried out to test their effectiveness (principally format, but views also welcome on content).

Please spend an appropriate amount of time reading each document (this should need no more than about 1 hour[*] for the short Guide) and then <u>put them to one side and complete this short questionnaire for each without looking at the documents it again</u>. *[Please return your questionnaire answers to* glmathieson@dera.gov.uk*, ideally by the end of August 2000 but if this is not possible then later inputs are also welcome]*
